

Open Call – Phoenix Challenge Review Project team

The Programme Service Department wish to create and form a Phoenix Challenge Review Project team.

The focus of this Project team will be the total review of the Phoenix Challenge, its aims, focus, logistics etc. This work will be undertaken over a period of potentially 36 months with supdating and tweaks undertaken over a number of Challenge events arriving at the final format of the Challenge. These changes and new formats will remain for a number of years before a future review.

All aspects of the programme and events are under review and Scouting evolves and changes to react to new situations, dialogue with young people and social considerations.

Team of reference for the Phoenix Challenge Review Project Team can be found here.

Response form can be found at this link.
