- The election process starts at day 0, with the opening of nominations
- The provincial secretary and where there is no provincial secretary an appropriate member of staff will extend an open call to all Scout Groups in the Province to propose suitable candidates for the position of Provincial Commissioner. Support Staff Member can assist the Provincial Secretary with the circulation of this open call to all members of the Province if required.
- Nomination for the position must be from a Scout Group within the relevant Province.
- The information circulated with the open call should include a nomination form, the Provincial Commissioner terms of reference including competencies and skill set required, the candidates' acceptance form, verification form, the Code of Conduct for Support Teams and the date for the pre-nomination workshop.
- All nominations should be received by the Provincial Secretary (or Support Staff Member) no later than 21 days after the open call is published.
- A 'meet the candidates' should take place where all candidates, validly proposed, should be given 5 – 10 minutes to present their vision for the role. The Provincial Secretary will organise this meeting after close of nominations with the Support Staff Member.
- The electronic votes will be secure when received and counted on the morning of the Provincial Conference. The counting of votes will be overseen by an external Provincial Commissioner with each nominee having a representative present at the count.
- The Provincial Secretary should contact the secretary of the Board with the successful candidate's name.
- Best practice says there should be a transition period when both the outgoing PC and the newly elected PC and are working together. This should be no longer than 3 months.
- Where there is only one candidate validly nominated for the position, the person nominated shall be deemed elected only if they receive 50% + 1 votes of the valid votes cast.
